

## LH Vertical Reference Door

### Description

The Transwest LH Vertical Reference Door provides improved comfort and safety during a long day of vertical reference work.

The LH Vertical Reference Door is modified to add a deep bubble window, viewing slot, instrument panel, shoulder and arm rests. The LH Vertical Reference Door comes complete with a wiring harness to allow installation of instruments in the door.

### Aircraft Model(s)

Bell 205A, 205A-1, 212, 214B, 214B-1, 412, 412CF, 412EP

### Approvals

TCCA STC SH07-20

FAA STC SR001451B

### Features

- Bubble Window is made of scratch resistant Polycast SC with enhanced craze-resistant material
- Shoulder and arm rest for added comfort
- Quick disconnect wiring harness
- Electrical provisions to install TQ, NB, FIRE WARN and loadcell

### Benefits

- Allows LH Pilot to move further outward without helmet hitting door frame or window
- Increased comfort during VR operations
- Visibility is greatly improved with deep bubble window and viewing slot
- Quick Release wire harness allows for quick change over
- Bubble window tint provides improved UV protection and comes with tint options
- Allows LH Pilot better line-of-sight view of the external load
- Enables LH Pilot to easily monitor the instruments to avoid any exceedances during VR operations
