

Co-Pilot Seat Modification with Sheepskin Covers

Description

The Transwest Co-Pilot Seat Modification offers the most comfort of any VR seats. The Co-Pilot Seat is tilted slightly outboard for better positioning. With the LH lumbar completely removed and the seat cushions (back and bottom) extended this is not only the most comfortable seat but also provides added support. The sheepskin covers assist with regulating heat and makes flying those long days a little easier.

Aircraft Model(s)

Bell 204, 205A, 205A-1, 212, 214B, 214B-1 (412 pending)

Approvals

TCCA STC SH03-23

FAA STC SR01903NY

Features

- Both back and bottom cushions are widened
- Seat tilted slightly outboard
- LH lumbar is completely eliminated
- Covers made with top quality Sheepskin
- Covers are designed so they can be easily washed or replaced

Benefits

- Improved all day comfort during Vertical Reference operations
- Improved support with extended cushions during VR operations
- Easy to replace Sheepskin covers
- Assists with heat regulation
